# Extra lange panelen

 **Op voorraad\***

## Paneelafmetingen | 11 x 600 x 3020 mm

Doordat er steeds vaker huizen worden gebouwd met hoge plafonds, krijgen zowel fabrikanten als ontwikkelaars te maken met veranderende vraag. Wij bieden extra lange panelen voor ruimtes met hoge plafonds.

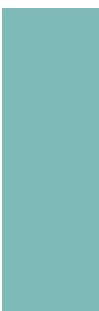

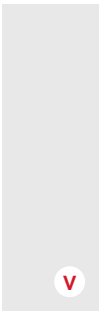

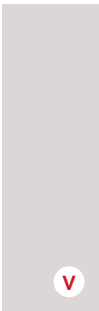

**Let op** De kleuren kunnen afwijken van het daadwerkelijke product.

### Afkortingen voor oppervlakte-structuren van panelen:

HG = Hoogglans,

S = Zijdeglans, EM = Extra mat

**3020 mm lengte** | Beschikbaar in zowel een L-design: voeglijn van 3,5 mm als een LM-design: voeglijn van 1,8 mm

|                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                |                                                                                                                                                                                                                                                                      |                                                                                                                                                                                                                         |                                                                                                                                                                                                         |
